RRCC - Regional Response Coordination Center – That is the FEMA Regional Center in Denton, TX
IOF – Interim Operating Facility – This is the interim building FEMA sets up right after the event until they get a permanent JFO open
JFO – Joint Field Office – This is the permanent facility FEMA sets up to manage the disaster (all the federal agencies that have Mission Assignments will normally have a rep there while field operations are going on; and we may have a PIO there working with FEMA and other PIOs, and other rep's on committees FEMA may set up – debris, health and safety, etc)

With Regards, Steve
